## SUMMARY

Results-driven Product Manager with a strong foundation in Electronics and Embedded Systems, bringing a unique blend of technical expertise and strategic thinking. Proven track record of leading cross-functional teams, managing product lifecycles, and driving data-informed decisions to enhance user experience and market performance. Skilled in IoT systems, sensor integration, and real-time monitoring solutions, with hands-on experience in both hardware prototyping and software implementation. Adept at translating complex technical challenges into scalable product solutions, aligning stakeholder needs with innovative technology. Passionate about building impactful tech products that bridge hardware and user-centric design.

## CERTIFICATION

- **Project management fundamentals**  
IBM

## WORK EXPERIENCE

<b>Product Operations Manager at Rachitham</b>	<b>March 2025- Present</b>
<ul style="list-style-type: none"><li>• Led product development and streamlined workflows, ensuring timely delivery and high quality outcomes.</li><li>• Analyzed performance metrics and coordinated cross-functional teams to enhance operational efficiency.</li></ul>	
<b>Product Operations Manager at Urban Scholar</b>	<b>Oct 2024 - Jan 2025</b>
<ul style="list-style-type: none"><li>• Managed the end-to-end product lifecycle, optimizing processes and resource allocation for smooth execution.</li><li>• Leveraged data-driven insights to inform product enhancements and ensure successful launches.</li></ul>	
<b>Internship at India Space Labs</b>	<b>Dec 2024 - Jan 2025</b>
<ul style="list-style-type: none"><li>• Engaged in hands-on aerospace training, contributing to satellite prototyping and drone technology modules within a structured space science curriculum.</li><li>• Collaborated with multidisciplinary teams to explore CubeSat systems and space entrepreneurship, applying theoretical knowledge to real-world space tech challenges.</li></ul>	

## EDUCATION

<b>Btech. in Electronics and Communications Engineering (VIT)</b>	<b>Oct 2022 - Aug 2026</b>
CGPA - 8.78 ( Current )	

## ADDITIONAL INFORMATION

- I turn technical constraints into innovation opportunities
- I speak the language of both circuit diagrams and customer needs.

## CORE SKILLS

- Embedded Systems Design
- Technical Project Management
- Product Lifecycle Management
- Cross-functional Communication
